

NOTE: This email was sent to State of Michigan Attorney General Bill Schuette following up on several phone calls to his Lansing, MI office. NO RESPONSE to date August 11, 2016. NO RESPONSE from any of the public officials who were copied on my March 4, 2014 letter to Bridgeport officials (attached to Police Report), detailing and documenting all the malicious, criminal acts and willful violations of my Constitutional Rights, the Open Meeting Act, Freedom of Information Act, Right to Farm Act, Riparian Law by Democrats and Republicans at every level.

This is what happens when rogue cops and politicians, Democrats and Republicans, are not held accountable for malfeasance and criminal acts committed in office. Corruption has worsened exponentially without benefit of law enforcement, propagating intolerable human rights abuses like these in Bridgeport and Frankenmuth, MI and the Flint Water Crisis.

Before becoming AG, Michigan's top law enforcement official, Bill Schuette was Director, Michigan Department of Agriculture when I reported illegal, off label, sprayings of deadly Dow Garlon by MDOA on corn, beans and other crops. Mr. Schuette did then as he is doing now, outright refusal to uphold law and order and Citizen Rights to equal protection under the law. ALL the contaminated crops went to market and the illegal sprawings continue in 2016.

Subject: URGENT Request for Law Enforcement

Date: December 2, 2014 at 12:52:00 PM EST

To: " miag@michigan.gov " < miag@michigan.gov >

Dear Mr. Schuette,

Please consider this a last call for you to uphold Michigan laws, our Constitution, your Oath of Office and my human rights.

On March 4, 2014 I was terrorized, assaulted, adducted, detained and

falsely charged by corrupted Bridgeport Township, MI politicians and law enforcement officers (with the willful intent to destroy me and our family business).

The crimes were committed in broad daylight inside our local government building housing the local police department and Bridgeport Township Hall. Over 35,000 viewers have seen this on YouTube and await YOUR actions. True to form, Saginaw County Sheriff William Federspiel, Prosecutor John McColgan and Michigan State Police are STILL PROTECTING THE CRIMINALS. Please go to YouTube, type in keywords "Mark Adams arrest" or follow the link:

https://www.youtube.com/watch?v=zIZd3De_JoY

The video documents how in addition to terrorizing local businessmen, Michigan's public officials go on violating their Oaths of Office and Michigan's Constitution, our Federal Constitution, UN Convention on Human Rights and a host of other laws with impunity.

The REAL criminals are still on the loose, NOW empowered to terrorize law abiding citizens who stand up to the Democrats outrageous corruption, destroying businesses, Michigan's culture and economy. WHO on earth would want to try raising a family or growing a business here in Michigan so long as our Attorney General is condoning such outrageous lawless acts of violence by rogue law enforcement officials, protecting criminals STILL on the public payroll (9 months after their crimes were videotaped and broadcast in the news)?

IF Rules of Law were honored in Michigan by yourself and our Republican Governor Snyder, the perpetrators who conspired to violate my Civil Liberties and Human Rights would ALREADY be removed from public office, brought to justice and incarcerated. But instead, as criminals who escape justice often do, it got worse.

On May 6, 2014 a corrupted, bigoted, racist Judge Terry Clark issued an unlawful Warrant for my arrest for the "crime" of having dropped off a small storage barn on my farm. Law protecting citizens from

double jeopardy should have protected against 3 unlawful convictions. Judge Clark REFUSED to show up for the PreTrial. Despite my objections to their rushing to judgement, scheduling a trial when they knew I would be in Europe on business, before I had time to hire an attorney or prepare a vigorous defense to the frivolous charges. When Judge Clark failed to show, I advised the court I was not leaving the courthouse without FIRST seeing a Judge. Sheriff Federspiel's officer threatened to jail me on the spot if I didn't leave immediately. I was tried in absentia, convicted on 3 charges that are not crimes ANYWHERE ELSE. I could show you a similar storage barn I bought for our business in the SAME County, adjacent Township without any of the illegal harassment and criminal acts by public officials STILL terrorizing me, my family and employees.

I fear YOUR ongoing failures to protect good citizens, uphold justice and jail rogue cops and public officials violating their Oaths, Michigan's Open Meetings Act, FOIA and a host of other laws will put our Michigan business out of business if I am unlawfully imprisoned AGAIN by rogue law enforcement officials.

Again, Mr. Schuette, **please view the crimes perpetrated against me in full public view on YouTube and take URGENT actions THIS WEEK to apprehend the criminals and drop the unlawful Warrant issued against me by hopelessly corrupted State of Michigan officials**. This is your last call requesting my equal protection under the law before I am forced to take further legal actions requesting law enforcement (to uphold Federal and International laws that have been willfully violated) and move our business out of Michigan.

Best regards,

Mark Alan Adams
